

MANLIFT, TRUCK PROBE & TOWER DRYER SERVICE

- Installation
- Start-Up
- Maintenance
- Inspections
- Parts In Inventory
- 24/7 Emergency Service

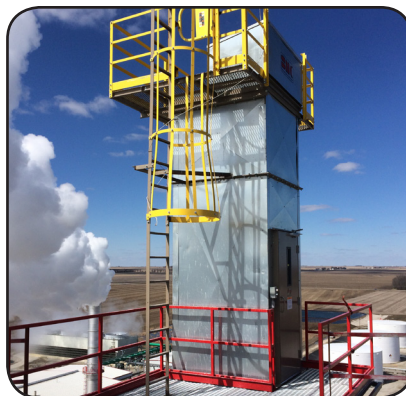

Koehl Bros. installs and services personnel elevators, truck probes and commercial tower dryers. We are an authorized and warranted Sidney Manufacturing, Intersystems, Zimmerman and GSI dealer. Our sales team is versed in the latest industry innovations and will provide the most efficient option for your facility satisfying your budget and your grain quality needs.

Our customers have access to our full inventory parts department, correcting any service flags promptly. We stock service kits that are perfect to keep on hand during harvest. Why wait for a problem to occur? Be prepared and keep your facility running.

If you are caught out of pocket and need emergency help, we offer 24/7 emergency service during peak season.

Koehl Bros. Service Team Members are certified in:

- OSHA 10 Hour
- OSHA 30 Hour
- Forklift Safety
- Aerial Safety
- Fire Prevention & Protection
- Confined Space
- Lockout/Tagout
- First Aid
- CPR

Personnel Elevators/Manlifts

Koehl offers a free consultation to determine your manlift needs. Once the best option is selected, CAD layouts of the manlift, accesses, platforms and egresses are created. Package pricing is available for this truly turn-key solution.

Our certified elevator technicians are available for service or upgrades to your existing manlift. They are on call if your lift ever goes down and you'll be up and running fast because we stock service parts.

Call today to schedule your safety upgrades, meet OSHA and ASME A17.1. We also offer in house training!

Truck Probes

Koehl Bros. installs, services and refurbishes truck probes. Our team is trained and ready to service and refurbish any brand of truck probe including Intersystems, JaHam, Gamet, etc.

Need an upgrade to your current set up? Ask for a free consultation. Our custom fabrication team can manufacture accessories specific to your truck probe sampling system.

Tower Dryers

Koehl Bros. installs and services all commercial and farm tower dryers.

We have an exclusive service team for tower dryers. They are trained to inspect each tower dryer for signs of shut-down. A report is generated from the 30-point inspection, flagging each issue or could-be issue. Ask us about upgrade opportunities or conversions!

ABOUT **K**:

KoeHL Bros., Inc. provides design, sales, construction, service and parts to the ag industry. Since 1946, we have discovered new, more efficient ways to serve our customers. We are proud of our experienced team, quality products and the customer loyalty that we have earned over the years.

We are dedicated to growing the ag industry to better feed the world. To support that mission, we focus our business on essential key factors: safety, speed and space.

Safety: We have researched, piloted and defined our safety engagement and improve-ment process. Our team is in a continuous state of improvement planning. We have incorporated safety best practices that include:

- safety audits
- training
- root cause and counter measure
- near miss and strict disciplinary policy

Speed: We understand your deadline and budget. On-time, complete delivery is our foundation for success. Our entire team is committed to keeping time line projections in check. We have built a squad of industry allies that share in our commitment. Together, we design and install the best integrated solution to achieve your system requirements.

Space: Space means a lot to the team at KoeHL. It's success waiting to happen. For our customers, it's opportunity to grow and maximize production. For us, it means higher inventories and equipment upgrades. We maximize space.
